

RE: NEW ONLINE BILL PAY!

Dear Advantech Customer:

In an effort to better serve our customers, Advantech has made convenient changes in the way our customers can process payments on their invoices. Enclosed in this mailing is your new invoice, now formatted as a single document with a detachable payment remittance stub at the bottom of the invoice.

Advantech is also proud to announce a new offering that gives our customers the ability to view and pay their invoices directly from our website! This secure feature allows you to view and pay your invoices by using your credit card or via an ACH bank transaction from your bank account. This convenience can be done as a one-time transaction or on a recurring basis according to your billing schedule. The information needed by you to register your account on our website includes your Customer Number, Customer Name, Billing Zip Code, and an Email Address that will be associated with the account moving forward. Follow these easy steps:

- 1 – Go to www.advantechsecurity.net/current-customers

- 2 – Click on  , then

- 3 – Click on "Setup New Account"

- 4 – Type in all of the required fields and then click "Create Account"

- 5 – You will then receive an email from OnlineSupport@advantechsecurity.net (to the email address you entered) that will contain a link that you must click on in order to activate your account.

- 6 – Enjoy the ease of paying your invoices and viewing your invoice history online!

If you have any questions, or would like a better understanding of the services provided, please do not hesitate to give our office a call Monday – Friday 8AM – 5PM.

Sincerely,

Eric K. Schaeffer
President
